

# PROLinx®

## FLOOR PROTECTION

### PROtect your floors with PROLinx Floor Protection

PROLinx Floor Protection is a heavy-duty paper barrier designed to protect surfaces temporarily during construction and remodeling. PROLinx is lightweight and extremely durable; it repels water, paint, mud and more. Designed to fit through doors and hallways, PROLinx is only 33" wide, making installation easier than ever. Put PROLinx on your new or existing wood, tile, concrete, stone or linoleum floors to keep them damage-free during construction activities.

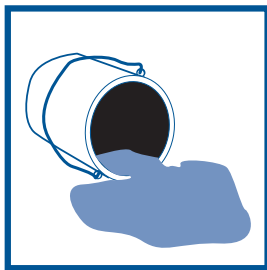

- Heavy-duty paper barrier
- Repels water, paint, mud and more
- Breathable material to allow vapors to escape
- Rolls out fast and flat for easy installation
- 100% recyclable
- Use to protect wood, tile, concrete, and other hard surfaces
